Reasons For Allowance

The following is an examiner's statement of reasons for allowance: In view of the applicants' response and terminal disclaimer filed February 13, 2006 the rejection of claims 18-24 under the judicially created doctrine of obviousness-type double patenting rejection has been obviated; the composite tubular cover or mantle for stent comprising a polymeric matrix reinforced with monofilament cross-spirals, comprising an adsorbable, crystalline, monocentric, polyaxial copolymer is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In The Claims:

Cancel Claims 1-17 drawn to inventions not elected by original presentation in the preliminary amendment filed July 30, 2003.

Newly submitted withdrawn claims 1-17 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 1-17 were voluntarily withdrawn by applicants in the preliminary amendment filed July 30, 2003.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-17 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

This application is in condition for allowance except for the presence of claims 1-17 directed to inventions non-elected without traverse. Accordingly, claims 1-17 have been cancelled.
